GROOVE NAZAR

BIO

Groove Nazar is a Barcelona-based band that fuses soul, funk, fusion rock, and jazz into a cinematic, groove-driven sound. Inspired by artists like *Bill Withers*, *Lettuce*, *Vintage Trouble*, and *Snarky Puppy*, their music bridges wide appeal with a progressive, sophisticated edge, delivering performances that feel both familiar and refreshingly unpredictable.

After their 2021 debut EP, GN released **Bad Times** (2023), followed in 2025 by their boldest work yet, **Nahpalm**. The record blends the warmth of vintage grooves with the punch of a modern sound, creating songs that connect instantly while revealing new layers on every listen.

NAHPALM – STAGE-READY 2026

Designed for the stage as much as for listeners, Groove Nazar's **Nahpalm live show** is a colorful experience: besides performing new and previous songs, the band incorporates moments of improvisation and direct audience interaction. Having played Barcelona's top venues, Groove Nazar is now set to bring Nahpalm to stages across Europe in 2026, offering audiences a performance that hits instantly and keeps them moving from start to finish.
